used by Mayan Priests for healing,  
rituals, and prayers

Everyone attending will have time to spend with Max. Many who have touched the skull have had a range of experiences including receiving instantaneous healing, information, visions of other worlds and the experience of higher states of consciousness and expanded intuitive abilities.

#### **Special Evening with Max and JoAnn Parks, Skullkeeper:**

JoAnn Parks will tell the story of how Norbu Chen passed the skull to her right before his death. Hear how she moved from talking to the "rock" in her closet to being an internationally recognized peace elder offering healing and consciousness-raising sessions with the skull.

Max is considered by many, including the British Museum, to be one of the rarest artifacts ever found. Estimated to be at least 10,000 years old, today Max is used as a tool for awakening consciousness and accelerating healing and growth on all levels.

We will also be showing the movie:

## Max the Crystal Skull The Power Revealed.

This film set out to search for answers about why thousands of people travel across the planet to be in the presence of this ancient artifact and masterpiece.

**Private sessions with Max** will also be available on Friday, January 22, 2011 thru Sunday, January 24, 2011. Private sessions are \$50 for 30 minutes or \$35 per person for a shared session with 2-5 people.
