This is your opportunity to connect with others and discuss how each of us can play our part in preparing for 2012, whatever it may bring. The focus will be on unity consciousness, collaboration, cooperation, and exploring the Divine role of the individual in the light of the community. Through the use of small discussion groups, this forum will be a kind of think tank to explore ways of promoting community connection, sustainability, and setting intentions for bringing light or providing service in Northern Colorado.

PRESENTED BY

SPRE

Society for PSI Research and Education

SPRE will end its year with a panel of experts from several disciplines, who will present tools and tips in preparation for 2012. Optimistic about the coming year, SPRE is aware only one thing is certain, there will be change. Tony Robbins once said, "*The quality of a person's life is determined by the quality of the questions they ask*". With that in mind, our panel of experts will address important questions about the new year in the May presentation.

What should I be aware of when choosing a class or beginning to work with an individual that will have access to my subconscious mind?

Ken Stone - Ken is a gifted energy worker. Divinely inspired, Ken has helped over a thousand people all over the world to transform their lives.
